

Adding Patient Weights

18/03/2026 12:27 pm GMT

Summary

A patient's weight can be added through the Patient Details screen, from any of the Day Lists, from the Treatment screen or the Reception screen. This functionality allows you to add a patient's weight to their treatment history with the ability to view their weight progress.

Details

Add Weight & Body Condition Score.

From Patient Details

1. Search and select a patient from Reception
2. Select the patient and choose 'Details'.
3. Select 'Modify'.
4. Insert the patient's weight into the Weight field.
5. Insert the patient's body condition score (BCS) into the Body Condition field.
6. Select 'Save Patient' to save changes.

Patient Details		Notes	Reminders	Lab Result	Weight Chart	Reminder Letters
Patient						
Patient Category *	Small Animal		Last Visit	16/12/2025

ID	1266834		Date Of Birth	01/05/2020	Enter Age	
Species *	Canine		Age	5 Years 10 Months 17 Days old		
Breed *	Dachshund – Standard Smooth Hair		Weight	19.2	Kg	
Colour	Black & Brown		Body Condition	4		

1. Once you have saved the patient's weight and BCS, an entry is added to the patient's Treatment History.

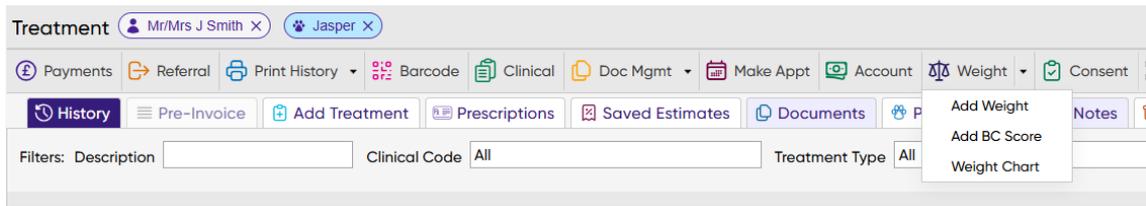

Date: 01/08/2025			
	01/08/2025	13:27	Weight updated from 63.300 Kg to 60.000 Kg

- 2.

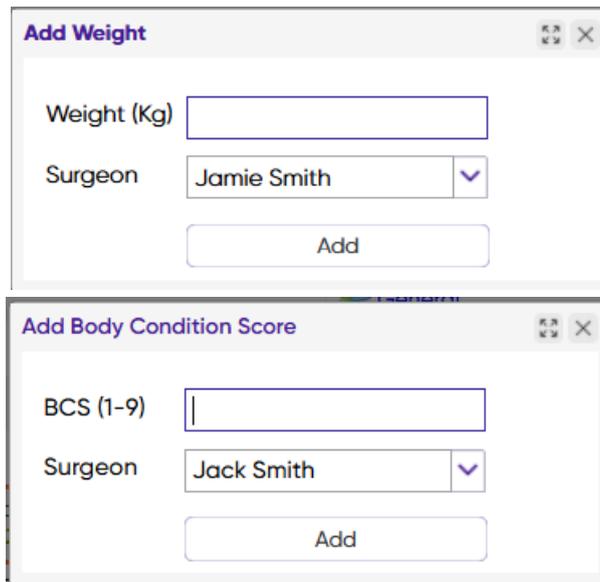

18/03/2026	12:18	Body Condition Score recorded: 4.0
------------	-------	------------------------------------

From Treatment Screen

1. Enter a patient's Treatment Screen.
2. Select 'Weight' and select 'Add Weight' or 'Add BC Score' from the drop-down menu.

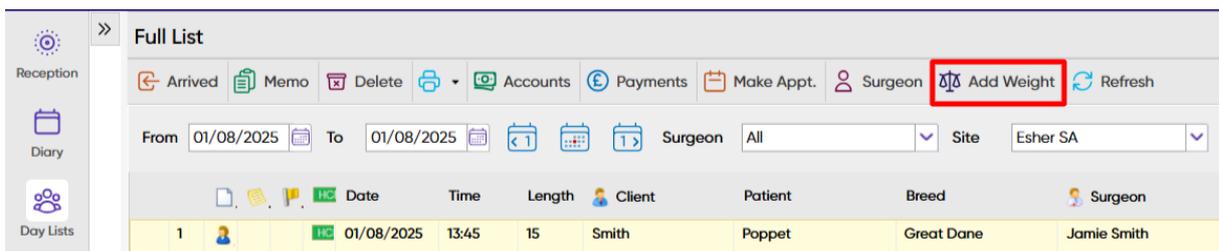

3. Insert the patient's weight and BCS, select the Surgeon and select 'Add'.

4. Once added, the weight will show in Treatment History.

From Day List

1. Select a patient from a Day List on the Primary Navigation on the left-hand side.
2. Select the 'Add Weight' button, or if there isn't one visible, right click on the patient and select 'Add Weight' from the list.
