

Barcodes

16/09/2025 9:26 am BST

Note: This tab does not display for MWI Wholesale users as all batch information is displayed within the Dashboard tab of the ASN.

Details

To view the Barcodes tab, navigate to Inventory > Wholesale > Barcodes tab.

When an item is imported into Merlin from the 'View Orders' tab by selecting the 'Batch Download' button, and it has an associated barcode, it will display within the Barcodes tab along with other relevant information for that product such as the batch number and expiry date.

Check Codes

Barcode	Supplier Code	Batch Number	Expiry Date	Entry Date	Delivery Qty	Description	Treat Code
	00000001	BATCH12345BATCH...	31/01/2012	25/03/2025	1350		

Once imported, the barcode will also be added into Code Entry for the relevant item. Barcodes are then used for scanning items into the treatment draft screen.
