

Version 3.2 November 2025

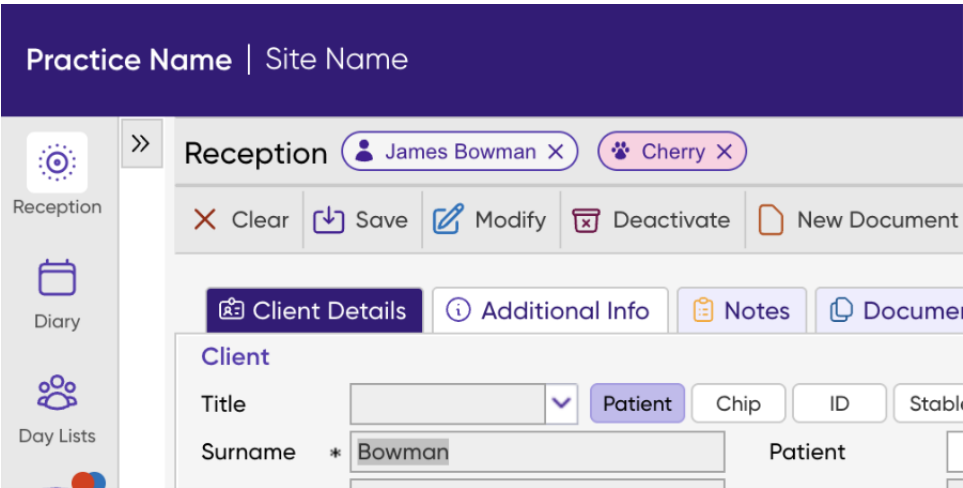

05/11/2025 3:06 pm GMT

This version 3.2 release brings additional enhancements to the new theme with client and patient indicators for improved navigation.

Client/Patient indicators (New theme)

We've added new breadcrumb-style Client and Patient indicators next to page titles. Alongside the existing display at the bottom of the page, these now allow quick clearing of selected Clients or Patients, streamlining navigation within Merlin.
